

Mike Murrah

Mike Murrah is a Managing Consultant with Aspen Risk Management Group (Aspen RMG). He is also President of BCG Insurance Services. Aspen RMG is an employee-owned consulting company providing business improvement strategies to commercial, government, and non-profit organizations.

Mike has thirty-six years (36) experience in the insurance industry. He began his career in the insurance industry with Liberty Mutual upon graduating from college in 1970. His role for Liberty Mutual was as a field claims adjuster, handling general liability and workers' compensation claims. Following this experience, Mike became claims manager of a captive insurance company in Denver, Colorado. In 1975, Mike entered the insurance brokerage business, with a large regional broker in Colorado.

In 1983, Mike started his own consulting and brokerage business, concentrating on workers' compensation and group health plans. In that capacity, he has had the opportunity to work with large employers such as PSA Airlines, Harvey's Hotel and Casino and Communication Corp. of America. In addition, Mike has twenty-two (22) years experience in providing consulting and safety services to the automotive dealership industry.

As a consultant, he has worked with employers in many industries to develop Injury & Illness Prevention Programs, conduct physical inspections and make recommendations to improve physical plant safety, and train managers on safety and conduct safety meetings for employees.

Mike's extensive knowledge of claims and their causes has allowed him the insight to be an effective and efficient consultant to employers. Mike's philosophy of safety is: For a safety & risk management program to be effective, business owners and managers must be committed to safety and for them to be committed they must be able to see how safety reduces their costs, eliminates problems with governmental entities such as Cal/OSHA and improves profitability.

Background/Experience Highlights
